

Door Tablet SQR

Workplace Signage Touch Display

Our unique 3.6 inch square touchscreen device is multi-purpose. Use it for hot desks, phone booths, rooms and more

Touchscreen Simplicity

A 3.6" square touchscreen offers a swipe interface giving you all the great interactive features of Door Tablet. Reserve, check-in, get assistance and more.

LED Bar

Warm, bright LED bar illuminates the device to show status at a distance - instantly see if a workspace is booked from afar. The screen itself will also reflect the status.

NFC Integration

Simply tap in and out of bookings. Immediate on-device booking. Set security and access levels. Audit meeting attendance and workspace use.

Two Interactive Layouts

Depending on the resource you open, the Door Tablet SQR offers two prime layouts for desks or meeting rooms. Integration with motion sensors for meeting rooms allows the SQR to signal that a workspace is in use.

Features and Benefits:

- **Full Booking Functions:** instant booking, check-in and check-out, extend or terminate bookings
- **Easy to Install:** works “out of the box”, mounts securely on most surfaces; water resistant and tamper proof
- **Wi-Fi Connectivity:** connects to the Door Tablet server via Wi-Fi with an option to use a PoE adapter
- **5V Power Supply:** no need to ever open the device to change a battery. Bluetooth enabled for full connectivity
- **3.6” Touchscreen Display:** sleek and elegant. LED bar shows workspace status at a distance
- **Sleep Options Available:** save money, power and the environment when the Door Tablet SQR is not in use, during non-working hours or weekends
- **Integration with Motion Sensors:** when using the SQR for meeting rooms, automatically signal if workspaces are occupied via the LED bar segment and on the screen
- **RFID/NFC Card Reader:** fast and easy check-in, extend meeting, check-out. Set security and access levels. Audit meeting attendance
- **Numerical (NU) Layout:** for workspaces with two or more users at a time. Shows numerical countdowns in both directions - how long the workspace will be busy for or how long it will be available
- **Desk (DSK) Layout:** for workspaces with a solo user. Shows name of user, time and duration of the booking
- **Centrally managed:** Updated your devices firmware and application centrally

Specifications

Processor	ARM Quad-Core Cortex-A35
OS	Android 12
